Fleuroselect Awards The Annual Fleurostar Honor To Petunia 'Phantom'

by Fleuroselect

Posted: Tuesday, April 5, 2011 at 3:21PM EDT

Fleuroselect, the International Organisation for Ornamental Plants, awards the annual FleuroStar honour to the variety that is judged to have the most 'wow' effect in the retail store or at home in gardens, on terraces or balconies. Winner for the 2011 season is Petunia 'Phantom', a unique black and yellow variety guaranteed to bring style to any setting!

Give landscapes a stylish edge with pinwheel-stripe 'Phantom' petunias. Sleek and sophisticated, this astonishing new petunia has a black base colour with a distinctive yellow star, blushed around the edges with a dark purple pink. Many people don't consider mixing black into their landscape's colour palette, but it looks great in containers and window boxes. This new annual is easy to grow and has a long blooming season.
